RESEARCH EXPERIENCE & VISITING POSITION

Visiting Student, National Bureau of Economic Research (NBER) New York Office, 2018 – 2020

- Developed doctoral dissertation that examined the effects of local paid sick leave laws in the U.S. on private sector workers' decisions to change employer/job, and on women's decisions to give birth.
- Learned from and interacted with health economists, labor economists, and public health researchers at the NBER New York Office.

Research Coordinator, New York University Perlmutter Cancer Center, Sep. 2017 - Dec. 2018

- Supervised and managed *Bellevue Hospital Breast Cancer Database* and coordinated ongoing clinical research programs in the breast clinic of Bellevue Hospital.
- Coordinated with clinic staff and physicians of patients' status in treatment including clinical trials and assisted with preparation of progress reports to funding agencies.
- Facilitated analysis and reporting of variables for the preparation of grant applications and manuscripts for publication, and coordinated regulatory processes and paperwork associated with open protocols.

TEACHING EXPERIENCE

Adjunct Lecturer, CUNY Queens College, Queens, NY, United States (SU20)

- Taught one class of *Price Theory* to 15 undergraduate students, both majors and non-majors.
- Developed syllabus, designed problem sets and exams, and held office hours each week.
- Demonstrated how to apply microeconomic models to consumers' and firms' decision-making problems at an advanced level.
- Helped students learn necessary mathematical methods used in those economics analysis and provided practical tools to evaluate the impacts of some public policies.

Adjunct Lecturer, CUNY Hunter College, New York, NY, United States (SP16, AU19, SP20)

- Taught one class of *Principles of Microeconomics* in two semesters (AU19, SP20), to an average of 90 diverse undergraduate students, both majors and non-majors.
- Taught a class of *Intermediate Microeconomics* (SP16) to 32 undergraduate students, mostly of Economics major.
- Developed syllabi and lesson plans, designed exams, and held office hours.
- Presented and illustrated models and other tools to help students learn the behaviors of individual consumers, households and firms in the economy.
- On weekly basis, posted discussions on forums to reinforce learning beyond the classroom.
- Provided accommodations for students with disabilities to promote an accessible and inclusive education environment.
- Created class activities in response to different students' learning styles.
- Used multimedia, PowerPoint and cases to stimulate learning process.

Quantitative Reasoning Fellow, CUNY Hunter College, New York, NY, United States (AU18, SP19)

- Designed [Math in Economics tutorials](#) that covered eight topics from *reading graphs* in introductory Economics courses to *calculating derivatives* and *Stata basics* in more advanced Economics classes.
- Clarified both basic and complex Economic concepts and methods, to increase students' understanding of class content.
- Reviewed mathematical and statistical methods for students who take Economics courses that require those knowledge as prerequisites.
- The tutorials were used in both *Dolciani Mathematics Learning Center* and *Economics Tutoring Center* of Hunter College.

Graduate Teaching Fellow (Instructor of Record), CUNY Queens College, Queens, NY, United States (AU15, SP16, AU16, SP17, AU17, SP18)

- Taught *Introduction to Microeconomics* (SP18) to 29 undergraduate students, both majors and non-majors.
- Taught one class of *Introduction to Econometrics* in three semesters (SP16, AU16, SP17), to an average of 16 undergraduate students, mostly of Economics major.
- Taught one class of *Introduction to Macroeconomics* in two semesters (AU15, AU17), to an average of 46 undergraduate students, both majors and non-majors.
- Developed syllabi, designed problem sets and exams, and held lab sessions and office hours.
- Introduced students to basic theory and empirical approaches in Economics, and prepared them for higher levels of Economics studies.
- Created empirical projects, exercises, and opportunities of oral presentation, for students to demonstrate teamwork and problem-solving skills.
- Assessed students' progress through both formative and summative evaluations.

Teaching Assistant, CUNY Baruch College, New York, NY, United States (SP15, AU15)

- Facilitated recitations sessions for *Principles of Microeconomics* and *Principles of Macroeconomics* courses.

- Increased students' competency with concepts and analyses from large lectures, through in-class exercises and practice problem sets.
- Utilized a multimedia approach to engage students' interest in economics models and key variables from those models.

Economics Tutor, CUNY Hunter College, New York, NY, United States (AU14, SP15)

- Tutored in a list of undergraduate level courses, including *Microeconomics*, *Macroeconomics*, *Money and Banking*, *Economic Statistics*, *Econometrics*, *International Trade*, *International Finance*, *Corporate Finance*, and *Security and Investment Analysis*.
- Provided one-on-one instruction to students at the Economics Tutoring Center, to improve their skills in solving economics problems.
- Clarified economics concepts and theories through graphic presentation of models and other tools, to increase students' understanding of class content.
- Reviewed basic topics in probability and statistics for students to build solid foundation for further study of econometrics.
- Helped students learn techniques in empirical research and familiarized them with the application of those techniques to a variety of economic datasets.

Teaching Assistant, Miami University, Oxford, OH, United States (AU13, SP14)

- Assisted professors teaching Economics courses (*Game Theory with Economic Applications* and *Examining Economic Data and Models* in SP14, and *Principles of Microeconomics* in AU13, SP14 semesters) with grading assignments, holding exam review sessions, and proctoring exams.
